

TENNESSEE DEPARTMENT OF FINANCE AND ADMINISTRATION
STS Director 1 – Network Services

Job Summary: Reports to the Chief Operating Officer of Technical Engineering Operations within Strategic Technology Solutions, is responsible for leading a team of IT professionals who will focus on supporting the Network Services functions within STS.

Responsibilities:

- Assist in setting the strategic direction and priorities for the Networking teams to Network Design & Deployment, Tier 3 Support and Networking Consulting, Data Center Network Administration, Internet Content Filtering, Local Area Network, Metro Area Network, Firewall Administration, DNS/DHCP, Wireless Network Administration and NetTN Provisioning and Services.
- Maintain and promote effective customer service relationships with users, business owners, vendors and agency leadership to inform them of services offered by the Networking team.
- Provide consultation and recommendations to state agencies by identifying their technology challenges and explore how the Networking team can meet their business needs.
- Develop and align strategies based on performance metrics, business requirements and input for all Networking staff members.
- Manage customer expectations and negotiate solutions to complex problems with customers and vendors for assigned areas.
- Develop objectives for assigned functional units to measure and improve organizational efficiency and performance.
- Determine appropriate allocation of budgeted funds within functional areas to ensure that highest priority projects have sufficient monetary resources.
- Review and approve staffing, cost, revenue and timelines needed to complete projects to meet the strategic plan of the organization.
- Review and prioritize distribution of resource allocation to ensure alignment with state-wide goals and vision.
- Review and approve cost models and rates for the Networking areas.
- Evaluate existing workforce against current and future service offerings.
- Monitor the IT operational environment, to include assigned IT operations, infrastructure, and other relevant work systems through subordinates, key performance indicators, service level agreements, and other indicators to identify trends and proactively anticipate problems.
- Make strategic recommendations to executive management.
- Develop and maintain individual performance plans to evaluate team member's performance and adhere to the State's performance evaluation policies.
- Communicate status of responsibilities with management, peers, subordinates and customers via verbal and written mediums.

Minimum Qualifications: Bachelor's degree in an IT or Business related field. Relevant professional information technology experience may be substituted for the required degree.

- Eight years of experience directing IT operations and functions of considerable difficulty.
- Five years of managerial experience.
- Experience working with Executive Leadership to create IT vision and IT strategies.
- Excellent interpersonal, written, and verbal communication skills.
- Excellent time management, organization, and prioritization skills.

Preferred Qualifications:

- Prior experience directing Networking units and providing statewide services.
- Prior state government experience is a plus.
